Our Teachers. Our Future.

INTRODUCTION

The Via Afrika Digital Education Academy (VADEA) was created with the mission of providing teachers with the knowledge, skills and values needed to prepare our learners to take their rightful place in the future as competent and confident citizens.

HOW IT WORKS

VADEA is a set of training sessions that offer teachers the chance to take on the challenge of elearning and the 4IR confidently. This is achieved through a series of online and face-to-face training sessions that take the teacher from the start of the journey to confident and competent teachers in a changed classroom.

"Using technology as a teaching and learning tool in the classroom [brings about fear, anxiety and concern] to an even greater extent [than change] since it involves both changes classroom procedures and the use of often unfamiliar technologies."
– BITNER AND BITNER (2002)

To address this issue, the Via Afrika Digital Education Academy offers the revolutionary **Mindset Change for effective Digital Education** Course. This three-day training identifies and creates the ideal mindset for a teacher who is working in the digital age.

We are well and truly in the **Fourth Industrial Revolution (4IR)** but what does that mean for teachers? Teachers now require different skills and knowledge to what they did even five years ago. VADEA has developed the training needed for a teacher to be able to take their place in a classroom in the 4IR with a full understanding of the technology and pedagogies needed to make learning and teaching a success in a set of 9 courses using **Windows (on tablets and laptops)** and **Android operating systems. The laptop course offers guidance on how to teach with only one laptop in a classroom.**

The **laptop** course offers guidance on how to teach with only one laptop in a classroom. To meet the needs of a changing environment we offer a **Teaching Online** course that will give the teacher the knowledge and skills to develop learning for remote teaching and learning situations.

VADEA operates in partnership with the Department of Basic Education (DBE) and was developed from the work Via Afrika has been doing in rural schools in dedicated technology centres.

All of the training sessions in the courses have been approved by the South African Council for Educators (SACE) for Continuous Professional Development Points (PD Points). Certain of our courses are accredited by the ETDP Seta.

THERE ARE THREE **DELIVERY MODES**:

1. ASYNCHRONOUS TRAINING ON VADEA PLATFORM (online and no interaction with the trainer)
There are videos, online activities and assessments on our VADEA website.
Available for our 4IR, Android and Windows Courses as well as our Teaching Online course.

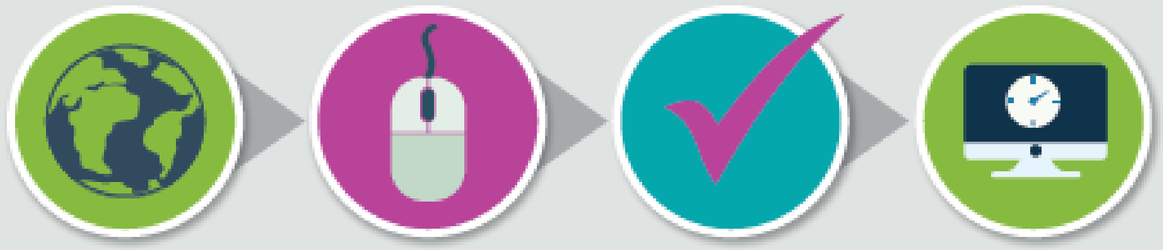
Features of our online learning

- Available across devices (PC, laptop, tablet, mobile phone) for easy access when convenient.
- Offered in bite-size chunks of around 30 minutes allowing teachers to fit training into their schedule whenever time allows.
- Life-time access to allow you to revisit the sessions anytime to reinforce learning.

2. SYNCHRONOUS TRAINING ONLINE (online and with interaction with the trainer in real time)
This is live training with a trainer who will take you through the course and do the activities with you.
This is just like face-to-face training but takes place online. There is a data cost involved with this training.

These training sessions are not recorded. You will however have access to the asynchronous training version on our VADEA platform where it is available.

3. FACE-TO-FACE TRAINING
As per viable demand, please contact us for a quotation and software and data requirements.



Simply go to our website. www.vladafrika.com/academy

Register by clicking on the REGISTER NOW button. Registration is quick and easy – just follow the onscreen prompts.

Select and buy the session you want. Click on "Register" and follow the prompts to complete your registration.

Complete the training at your own pace, and at your own time.

TEACHING ONLINE

FOUNDATIONS OF ONLINE TEACHING

These sessions introduce the key concepts of learning and teaching online and explores the pedagogy and best practices of effective online teaching.

TEACHING SYNCHRONOUSLY

These sessions introduce what you need to know and do to prepare for and teach online learning that happens in real time with real time interaction with learners using a variety of channels.

TEACHING ASYNCHRONOUSLY

These sessions introduce what you need to know and do to prepare for and teach through online channels without real time interaction with your learners as you will not all be online at the same time.

ABOUT ONLINE LEARNING

1 WHAT IS ONLINE LEARNING?

- Online learning is training that is done on a computer connected to the internet. You can use your laptop computer, your tablet device or even your smartphone to log in to the Via Afrika Digital Education Academy Online platform in your internet browser. (You probably already use Chrome internet browser or Edge to search the internet.)
- Here you will watch videos, read notes and do activities that will develop your knowledge, skills and values in digital education. You can download notes to work with later, and finally print out your certificate when you have passed the assessment.

2 WHY IS ONLINE LEARNING SO POPULAR?

- You choose where you want to study and when you want to study.
- Because you are logging on to the internet, you can choose to do wherever you can connect to the internet.
- Online learning gives you the flexibility to study when you want to.
- You can choose what you want to study.

3 LEARN AT YOUR OWN PACE

- With online learning you can pause, rewind and work through the course at your own pace.
- There is a great variety of topics available.
- It's easy to refresh your knowledge.
- With online learning you can easily go back to the course and watch the video again – whenever you want to. A perfect way to revise.

4 FEEDBACK

- Online learning gives you instant feedback to activities. There is no waiting for your final assessment results. Complete the Badge Assessment Task. Get more than 70% and then simply print your own certificate.

5 INVESTMENT

- It is a lot cheaper to do online learning that it is to do face-to-face training because there are no travel costs, no venue costs and no facilitator costs.

WHAT IT COSTS

- All asynchronous (recorded, do in your own time and speed) **two-hour** online sessions cost **R125.00** (VAT inclusive)
- All asynchronous (recorded, do in your own time and speed) **six-hour** online sessions cost **R375.00** (VAT inclusive)
- Contact us for a quotation for all synchronous (live, facilitated sessions) or face-to-face training sessions.
- Please note that you need to contact us to discuss the Mindset Change course and various prices.

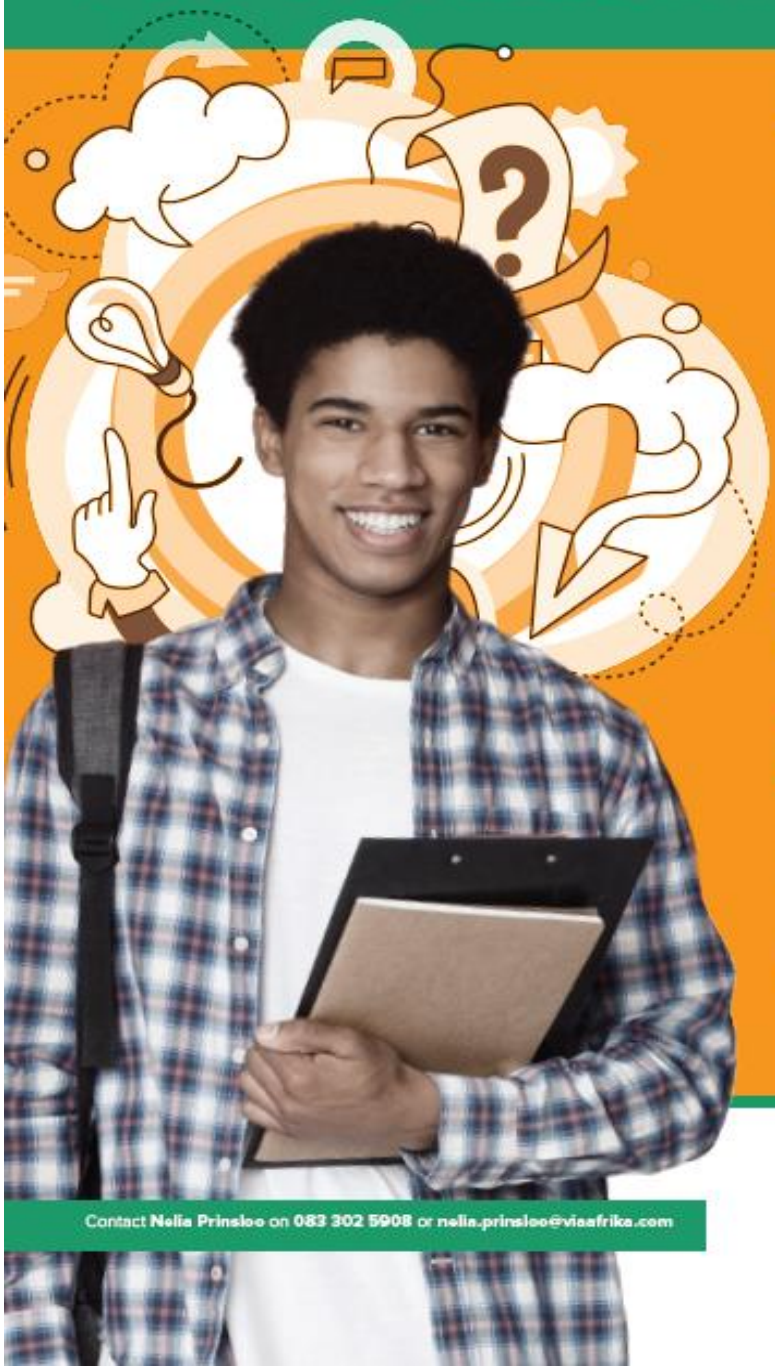
A MINDSET FOR SUCCESS

Students have significant pressures placed on them that they have had little or no preparation for.



You have the opportunity to give your students access to an online course that will equip them with:

- insight into the way their minds work
- a new way to deal with pressures in their lives
- a powerful method to ensure they achieve the goals they've set.

Why not give them a chance to make the best of their time while studying, and to ensure their future success?

Course content

1. Developing an understanding of how we think and why we act as we do
2. Appreciating the role our values and beliefs play in making decisions and achieving goals
3. Creating a goal on solid foundations
4. Putting a goal into the future

Course delivery

The course is:

- delivered in a secure online learning environment
- accessible on any device
- broken into student-friendly chunks (more than 75 minutes of video) completed at learner's own pace.

Course cost

R100,00 (VAT incl.) per student
